

# CATALOGUE OF SCIENTIFIC ACTIVITIES IN BRUSSELS

You want to discover the scientific activities  
in your neighbourhood?

You love science competitions but  
don't know where to find them?

You want to discover new technologies  
with your class?

Then this catalogue is what you're  
looking for!

You will find everything Brussels has to  
offer classified by municipality.

BRUXELLES-VILLE

# XPERIBIRD.BE

Initiated by the Royal Belgian Institute of Natural Sciences and Google.org, XperiBIRD.be hands on nest boxes to schoolss, equipped with a camera controlled by a nanocomputer. These allow classes to discreetly follow the nesting of a pair of titmice. The project also allows young people to be involved in a participative science project that combines natural sciences and technologies.

# XPERILAB.BE

XperiLAB.be is a mobile lab that has been designed to increase (young) people's interest in science. The concept: boarding a truck to carry out various scientific experiments in the fields of biology, chemistry, physics and technology. These experiments present a triple challenge: to succeed in the proposed research with a time limit of 15 minutes and by saving as many points as possible.

SOLVAY SA

Solvay teams up with Brussels institutions to organise a competition between student teams. The competition comprises a pre-selection and a final. Its goal is to reveal the reality of a research laboratory in a company, as well as to highlight the scientific career opportunities of women in industry. The winning team has its first year of higher education funded by the Ernest Solvay Fund.

# IRISIB – INSTITUT DE RECHERCHE DE L’INSTITUT SUPÉRIEUR INDUSTRIEL DE BRUXELLES

Through their research unit LARAS, IRISIB promotes among other things the realization of projects that mix Art and Science. Equipped with a FabLab, a sound design studio, virtual reality (VR) and augmented reality (AR) equipment, IRISIB receives school groups, students, experts, companies and artists wishing to develop VR/AR projects. IRISIB leads numerous activities promoting Science and Technology for school audiences and young people. IRISIB also conducts research projects in collaboration with companies.
